Representative Mr. Chintan Shah present for the Applicant (Promoter).

1. The Applicant herein, under section 5 of the Real Estate (Regulation and Development) Act, 2016 ("said Act") of Real Estate Regulatory Authority ("RERA"), had registered a project namely "WISE CITY, SOUTH BLOCK, PHASE I, PLOT RZ8 BUILDING 5 WING D5" bearing MAHARERA Registration No. P52000020858 and a project namely "WISE CITY, SOUTH BLOCK PHASE I, PLOT RZ8 BUILDING 1 WING A2" under section 5 of the Real Estate (Regulation and Development) Act, 2016 ("said Act") of Real Estate Regulatory Authority ("RERA") bearing MAHARERA Registration No. P52000021106 (hereinafter referred to as the "said Projects").

2. On 28.08.2023, applications were made by the Applicant (Promoter) for seeking deregistration of the said Projects. In this regard the captioned cases were heard on 26.07.2024 wherein the following roznama was recorded:

*"Promoter informs that they seek to deregister as they have unsold inventory in the project in the vicinity. They further inform us that sales have not yet started and hence there are no allottees. The Promoter confirms that while the plot numbers of the land are same, they are two separate Projects on the plot bearing the same number. Authority finds that notarized declaration cum undertaking dated 1,8.06.2024 and A.06.2024 showing zero allottees is on record.*

*Matter is reserved for order."*

3. The Applicant (Promoter) has stated the following for seeking deregistration of the said Projects:

- a. That the Applicant (Promoter) is unable to continue the said Project due to change in business plan/strategy.
- b. That the sales of the inventory in the said Projects has not started.
- c. Further it is also submitted that the said Projects do not have any allottees.
- d. That two other Projects bearing different Project registration numbers are situated on the same plots of land, but the Applicant Promoter has stated that they are different from the captioned Projects.

4. Thus, from the submissions of the Applicant (Promoter) it is clear that there are no Allottees in the said Projects. Further, it is also observed that office of MahaRERA on 20.09.2023 issued notices inviting objections for deregistration of the said Project wherein no such objections were received. In view thereof, the Authority shall now examine the application for deregistration filed by the Applicant Promoter.

5. Before the Authority decides on the order on deregistration, the section that provides for grant of registration needs to be examined. Section 5 of the said Act is hereinbelow reproduced for ease of reference:

*"Section 5 - grant of registration:*

(1) On receipt of the application under sub-section (1) of section 4, the Authority shall within a period of thirty days. (a) grant registration subject to the provisions of this Act and the rules and regulations made thereunder, and provide a registration number, including a Login Id and password to the applicant for accessing the website of the Authority and to create his web page and to fill therein the details of the proposed project; or (b) reject the application for reasons to be recorded in writing, if such application does not conform to the provisions of this Act or the rules or regulations made thereunder: Provided that no application shall be rejected unless the applicant has been given an opportunity of being heard in the matter.

(2) If the Authority fails to grant the registration or reject the application, as the case may be, as provided under sub-section (1), the project shall be deemed to have been registered, and the Authority shall within a period of seven days of the expiry of the said period of thirty days specified under sub-section (1), provide a registration number and a Login Id and password to the promoter for accessing the website of the Authority and to create his web page and to fill therein the details of the proposed project.

(3) The registration granted under this section shall be valid for a period declared by the promoter under sub-clause (C) of clause (1) of sub-section (2) of section 4 for completion of the project or phase thereof, as the case may be."

6. On perusal of section 5 it is clear that a project registration is granted pursuant to the Promoter / Developer seeking a grant of registration. A grant for registration when sought under section 5 is an acknowledgment of the intent of the Promoter / Developer to start and complete a project wherein premises as described under the said Act would be handed over to the Allottees. Thus, the critical ingredient of section 5 is the intent of the property to complete as a project. A registration number has been provided so as to ensure that from the point the project starts namely on receipt of commencement certificate to the point when the project concludes namely on receipt of occupation / completion certification the project remains compliant. This is the intent of RERA and this intent is clearly brought about in the preamble of the said Act which is reproduced hereinbelow:

"An Act to establish the Real Estate Regulatory Authority for regulation and promotion of the real estate sector and to ensure sale of plot, apartment or building, as the case may be, or sale of real estate project, in an efficient and transparent manner and to protect the interest of consumers in the real estate sector and to establish an adjudicating mechanism for speedy dispute redressal and also to establish the Appellate Tribunal to hear appeals from the decisions, directions or orders of the Real Estate Regulatory Authority and the adjudicating officer and for matters connected therewith or incidental thereto."

7. On perusal of the preamble, it is evident that the intent is to ensure the sale of plot, apartment, etc. in an efficient and transparent manner and to protect the interest of the consumers. The intent thus mandates the Authority to ensure that the project remains compliant and the home buyers / allottees receive their premises. Hence the legislation is to ensure delivery of the premises to the home buyers / allottees. This is a beneficial legislation where a tangible asset needs to move from the Promoter / Developer to the home buyer / allottee in a manner as laid out under the said Act. The legislation is not for providing project registration numbers which do not lead to home buyers / allottees receiving tangible assets. The Authority needs to make it clear here that a project registration number once given to a project, the project must then proceed and take a course as defined in the said Act and finally tangible premises get delivered to the home buyers / allottees. The grant of a project registration number is not a hypothetical exercise for complying with certain statistical purpose.
8. It can thus be concluded that in the event the Authority finds that a project registration number which has been granted to a project is not likely to be completed the Authority is bound to take cognizance of the same and take such actions as may be necessary to bring the project to a conclusion. As the Authority is mandated to exercise oversight once a project registration number is given till the date it is successfully completed it is also for the Authority to take a call when it becomes apparent that the project is not likely to move further.
9. In the present case the intent to complete itself is not there anymore. There could be various reasons for the same. The Authority has no reason nor a mandate to delve into why the intent to complete has evaporated. The Authority has however to ensure that while there is no intent to complete the same is not driven by an intent to shortchange home buyers / allottees. Where allottees have been taken care of and their interest are not jeopardised anymore the Authority sees no reason to deny a deregistration when sought for.

10. The Authority sees no logic on maintaining a project registration number where either there are no allottees or where there are allottees but whose legal obligations have been fulfilled by the Promoter. The Authority is very clear that grant of project registration number, the oversight over a project having a registration number and maintenance of records of such projects is not a theoretical exercise. This exercise is clearly for the specific purpose of delivery of the premises. In the present case it is evident that there are no allottees. There are predicaments rendering Applicant-Promoter unable to complete the said Project. Thus, there is not intent to complete the said Projects and hence no logic to continue with the said Project registration numbers and hence the same need to be deregistered.
11. Thus, the said Projects are **deregistered** and the Promoter herein is directed never to advertise, market, book, sell or offer for sale, or invite person/s to purchase in any manner any apartment / unit in the said Projects.
